a) Maximum of five (4) jump elements one of which must be an Axel type jump. There may be up to two (2) jump combinations or one (1) jump combination without using the Euler (half-loop) and one (1) jump sequence. Jump combinations and the jump sequence consist of two (2) jumps. In the jump

sequence the second jump must be an Axel type jump with a direct step from the landing curve of the first jump into the take-off curve of the Axel jump.

One full revolution on the ice between the jumps (free foot can touch the ice, but without weight transfer) keeps the element in the frame of the definition of a jump sequence. Jumps executed in a jump sequence receive their full value.

An Euler (half-loop) when used in a jump combination or sequence between two listed jumps will be called but not considered as a listed jump and will not be counted in the number of the jumps of the concerned jump combination or sequence. After the Euler (half-loop) no change of foot is allowed. An Euler (half-loop) can only be executed once in the Free Skating.

No triple or quadruple jumps are allowed.

Only one single jump and one double jump (including Double Axel) can be repeated once.

b) There must be a maximum of two (2) spins of a different nature (abbreviation), one of which must be a spin combination, and one must be a spin with no change of position and no change of foot. The spin combination with a change of foot must have a minimum of eight (8) revolutions and without a change of foot with a minimum of six (6) revolutions. Flying entry is allowed. If with change of foot, only one level feature per foot will count. Difficult variation of a non-basic position is not counted as a feature in any spin; this will be ignored by the Technical Panel.

The spin in one position without change of foot must have a minimum of six (6) revolutions, must be done in a basic position (camel, sit, layback or upright) and will be called maximum level basic. No level features are allowed in this spin. 8 revolutions can be done but will not count as an attempted feature. Flying entry is not allowed.

c) There must be a maximum of one (1) step sequence fully utilizing the ice surface and including at least one skating movement such as a spiral, spread eagle, Ina Bauer, hydroblading etc. If the skating movement is missing, no Level will be given. At least 2 difficult turns and steps must be executed on clean edges for Level basic. The twizzle needs to have at least two (2) revolutions to be counted. The Technical Panel will not award Feature 3) Use of body movements for at least 1/3 of the pattern and Feature 4) Two combinations of 3 difficult turns on different feet, and Feature 5) Body movements included in a combination of 3 difficult turns feature.

Levels explanations:

For Cubs & Chicks, in all elements that are subject to Levels, only features up to Level 2 will be counted. Any additional features will not count for Level requirements and will be ignored by the Technical Panel.

The following Program Components are judged:
